Subject: Collaborative extension and research activities

Respected Sir,

With reference to the subject cited above, we are interested in collaborative extension and research activities with your department. The college will collaborate with forest department in plantation drives, forest fire awareness, nurturing the trees in and around hills of Koregaon, arranging hands on training programs, exhibitions, workshop, awareness programs, water conservation, soil-water analysis, in-situ and ex situ conservation of selected plant species etc. The institution has well qualified teaching staff as well as active enthusiastic UG & PG students, NSS students who will actively participate in concerned activities.

Expecting your support in this regard and oblige us.

Thanking You,

'Awareness Program for Cheetah'

Department of Zoology in collaboration with Forest Department, Koregaon has cordially celebrated 'Reintroduction of Cheetah' with students of the college. On 14th September 2022, Department of Zoology has been organized a guest lecture on Reintroduction of Cheetah'. The goal of species reintroduction is to establish a healthy, genetically diverse, self- sustaining population to an area where it has been extirpated or to augment an existing population species that may be eligible for reintroduction are typically threatened or endangered in the wild. The main goal of the cheetah program is to establish a viable cheetah metapopulation in India that allows the cheetah to perform its functional role as a top predator and provides space for the expansion of the cheetah within its historical range, thereby contributing to its global conservation effort.

Program was started with welcome of guest and theme of lecture by Dr. S. D. Jadhav. Felicitations of guests were carried by Prin. Dr. V.S. Sawant. Then the lecture was delivered by Mr. Lokhande and Mr. T.M. Mohite, Round Forest Officer, Koregaon. During lecture both speakers focused light on need of reintroduction of cheetah and food chain. He said that the conservation of the cheetah will revive grasslands and their biomes and habitat. 40 students took the advantage of this lecture and participated enthusiastically. Dr. Mrs. S. P. Nalawade, Head department of Zoology and all the faculty members of Zoology department attended the lecture. Dr. Mrs. S.M. Deshpande expressed the vote of thanks to everyone. The committee is thankful to all the members who have directly or indirectly contributed to this work and made this event successful.

S. P. Nalawade

Head
Department of Zoology
