World Wetlands Day

2nd February 2023

The World Wetlands Day is observed on 2nd February every year all over the world to commemorate the signing of Ramsar Convention on Wetlands of International Importance in 1971. India is a party to the Convention since 1982 and has so far declared 75 wetlands as Ramsar sites covering 23 states and Union Territories. The 2023 theme for World Wetlands Day is 'Wetland Restoration' which highlights the urgent need to prioritize wetland restoration. It is a call on an entire generation to take proactive action for wetlands, by investing financial, human and political capital to save the wetlands from disappearing and to revive and restore those that have been degraded.

India has the largest network of Ramsar Sites in Asia, making these sites a critical ecological network for conservation of global biological diversity and supporting human well-being. The Ministry of Environment, Forest and Climate Change (MoEFCC) launched Mission Sahbhagita in 2022 with a mission of 'a healthy and effectively managed network of 75 wetlands of national and international significance which support water and food security; buffer from floods, droughts, cyclones and other extreme events; employment generation; conservation of species of local, national and international significance; climate change mitigation and adaptation actions; and recognition, conservation and celebration of cultural heritage.'

Nearly 90% of the world's wetlands have been degraded since the 1700s, and we are losing wetlands three times faster than forests. Yet, wetlands are critically important ecosystems that contribute to biodiversity, climate mitigation and adaptation, freshwater availability, world economies, and more. It is urgent that we raise national and global awareness about wetlands in order to reverse their rapid loss and encourage actions to

conserve and restore them. World Wetlands Day is the ideal time to increase people's understanding of these critically important ecosystems.

With the point of creating awareness about value of Wetlands the Department of Botany, D. P. Bhosale College, Koregaon in collaboration with Department of Botany, A. S. S. M. Medha organized an online quiz (via google form) on the occasion of **World Wetlands Day** on 2nd February 2023. The total **61** participants solved and got e-certificate of the quiz.
