

RayatShikshan Sanstha's D. P. Bhosale College, Koregaon Online quiz on National Wildlife Week

National Wildlife Week

2nd to 8th October, 2022

Department of Botany

The National Wildlife Week is celebrated from the 2nd to the 8th of October every year in India. This week aims at "**Protecting and Preserving India's Flora and Fauna**". Wildlife Week was conceptualized in 1952 with a long-term goal to safeguard the lives of the endangered and threatened species of animals. The Indian Government has established an Indian Board of Wildlife, which strives to spread awareness in order to preserve the wildlife. The week comprises workshops to make people of every age comprehend the complexities of wildlife.

The Wildlife Week 2022 took place from October 2nd to October 8th. It was the 68th Wildlife Week that was held in 2022. Currently, indigenous peoples maintain over 28 % of the world's land area, including some of the planet's most biologically intact forests. These areas are important not just for their economic and psychological well-being but also for their cultural identities. It hence becomes vital to conserve these natural resources.

Importance of the Wildlife Week:

India is a biological hotspot, which means, it is home to a large variety of animal and plant species. India's flora and fauna are highly diversified and constitute more than 7 % of the world's biodiversity. It also incredibly accounts for 7.4 % of the world's fauna. This highly biologically diversified country requires proper education and awareness to preserve this rich cover. Hence, the wildlife week was conceptualized.

This week is commemorated to increase the awareness among the common mass regarding the role of wildlife in maintaining nature's equilibrium. Any damage done to wildlife over a prolonged period of time endangers the entire ecosystem. So, it is critical to protect it systematically. There is a symbiotic relationship between the forest, forest-dwelling animals, ecosystem services, and humans. With indigenous people now managing roughly

28% of forest land, the World Wildlife Week's mission is now much more relevant and significant.

Forests, forest species, and the livelihoods that rely on them are today at the intersection of many global crises, ranging from climate change to biodiversity loss and the health, social, and economic consequences of the COVID-19 pandemic. All of this makes it extremely essential to increase awareness regarding wildlife week amongst people.

About Theme of Year 2022:

"Recovering Key Species for Ecosystem Restoration"

World Wildlife Day will be celebrated in 2022 under the theme "Recovering key species for ecosystem restoration", as a way to draw attention to the conservation status of some of the most critically endangered species of wild fauna and flora, and to drive discussions towards imagining and implementing solutions to conserve them. In 2022, World Wildlife Day will therefore drive the debate towards the imperative need to reverse the fate of the most critically endangered species, to support the restoration of their habitats and ecosystems and to promote their sustainable use by humanity.

The Department of Botany, D. P. Bhosale College, Koregaon organized an online quiz (via google form) on the occasion of National Wildlife Week (2nd to 8thOctober, 2022). The attempt through this quiz was to make aware society, especially students, about the importance of conservation of endemic and critically endangered flora and fauna, their present conservation status and implementing solutions to conserve them. The students, faculty and civilians enthusiastically participated in the online quiz. The total 122 participants solved and got e-certificate of the quiz.

Head

Department of Botany
D. P. Bhosale College, Koregaon
