**Organizes online quiz on the occasion of
National Honey Bee Day**

Report

On the occasion of National Honey Bee Day, the Department of Zoology at D. P. Bhosale College, Koregaon, organized an online quiz event aimed at raising awareness about the vital role of honey bees in our ecosystem. The event took place on 19th August 2023 and saw enthusiastic participation from both students and faculty members.

A total of 75 participants, including students and faculty members from various disciplines, took part in the online quiz. The participants displayed a keen interest in learning about honey bees and their significance in pollination and biodiversity.

The online quiz was conducted through a user-friendly platform that allowed participants to answer multiple-choice questions and learn interesting facts about honey bees in a fun and engaging manner. The questions ranged from basic honey bee biology to their role in agriculture and the threats they currently face.

The event was organized into several rounds, each focusing on a specific aspect of honey bee biology and their importance to the environment. The questions were designed to challenge the participants' knowledge and inspire them to think critically about the role of honey bees in maintaining ecological balance.

To encourage active participation, the event organizers announced certificates for the every performers. The participants were recognized for their knowledge and dedication to learning more about honey bees. This recognition not only served as a source of motivation for the participants but also reinforced the significance of honey bees in our ecosystem.

The National Honey Bee Day online quiz event achieved its primary objective of spreading awareness about the critical role honey bees play in pollination and sustaining biodiversity. Participants gained insights into the intricate relationship between honey bees and the food chain, as well as the potential consequences of their decline.

The National Honey Bee Day online quiz organized by the Department of Zoology at D. P. Bhosale College, Koregaon, proved to be a successful initiative in educating participants about the importance of honey bees in our ecosystem.

Dr. S. P. Nalawade delivered talk on Honey Bee

In celebration of National Honey Bee Day, the Department of Zoology at D. P. Bhosale College, Koregaon, organized a creative initiative where students demonstrated their artistic talents while promoting awareness about the crucial role of honey bees in our environment. As a part of the celebration, students from the Department of Zoology designed captivating wallpapers centered around honey bees.

The student-created wallpaper initiative aimed to engage young minds in portraying the significance of honey bees through visual artistry. The participating students were given the creative freedom to craft wallpapers that highlighted different aspects of honey bees, such as their role in pollination, their role in agriculture, their life cycle, and the challenges they face in today's changing environment. This approach allowed for a diverse range of wallpapers, each conveying a unique message.

The students exhibited remarkable creativity in their artwork, effectively combining their artistic skills with their knowledge of honey bee biology. The wallpapers incorporated vibrant colors, intricate details of honey bees in action, and thought-provoking messages about the need to protect these vital pollinators. The student-created wallpapers were displayed prominently in the Department of Zoology. The initiative achieved its goal of educating the college community and beyond about the importance of honey bees. The eye-catching wallpapers acted as informative tools, sparking discussions about the role of honey bees in agriculture, biodiversity, and the overall health of our ecosystem.

The student-created wallpaper initiative on National Honey Bee Day showcased the fusion of artistic talent and environmental awareness among the students of the Department of Zoology at D. P. Bhosale College, Koregaon. Through their visually appealing creations, the students effectively conveyed the significance of honey bees and the challenges they face. This initiative not only highlighted the creativity of the students but also contributed to raising awareness about the importance of protecting honey bees for the benefit of our ecosystem.

The event brought together students and faculty members Dr. Mrs. S. P. Nalawade, Head Dept. of Zoology, Dr. Ms. K. J. Kamble, Mrs. N.A. Shaikh and Mr. S. A. Sudney in a shared effort to promote environmental awareness and conservation. Such activities contribute significantly to fostering a deeper understanding of ecological balance and the need to protect these essential pollinators for the well-being of our planet.
