**National Science Day: 28<sup>th</sup> February, 2024**

## **Report**

Every year on February 28, we in India celebrate National Science Day, honoring Sir C.V. Raman's discovery of the Raman Effect - the inelastic scattering of photons by matter. Raman Effect discovery has revolutionized the understanding of light interaction with matter. Sir C.V. Raman got the Nobel Prize for his discovery of light-matter interactions. Since 1987, National Science Day has been observed on this day to celebrate and promote science's role in our lives. In 1986, the NCSTC proposed the government of India declare 28 February as National Science Day. The National Science Day is celebrated to encourage and recognize outstanding efforts in the area of science and technology and inculcating scientific temper among the masses.

The Department of Botany, D. P. Bhosale College, Koregaon has organized an online quiz to test contestants' knowledge of various topics in science and allied fields. A set of 20 questions were asked in the form of online quiz (Google Form) of 40 marks. Total 184 contestants participated in the competition of which 132 were students and 33 were from the teaching profession, 14 researchers and 2 were farmers. Contestants from 2 states, 48 higher education institute (colleges and universities) have taken part in the online quiz.
