Jointly Organize Online Quiz

On the Occasion of

National Wildlife Week (1-7 Oct. 2023)

REPORT

National Wildlife Week's history dates back to 1952 when the Indian Board of Wildlife conceived the concept as a means to raise awareness about the long-term objectives of safeguarding India's wildlife. Originally observed as Wildlife Day in 1955, it later evolved into a week-long event in 1957.

The National Wildlife Week is celebrated from the 2nd to the 8th of October every year in India. This week aims at protecting and preserving India's flora and fauna. Wildlife Week was conceptualized in 1952 with a long-term goal to safeguard the lives of the endangered and threatened species of animals.

The theme for this year is "**Partnerships for Wildlife Conservation,**" which was inspired by the UN World Wildlife Day theme for 2023. It honors the people and organizations doing great things for wildlife conservation. The week-long celebrations will emphasize the idea that partnerships and collaborations are crucial elements of successful wildlife preservation. They are intended to promote inclusivity and collaborative action in the field of conservation.

The Department of Botany in collaboration with Department of Forests, Koregaon, Satara had organized online quiz on 6th October 2023 to celebrate the National Wildlife Week. The total of 78 participants from different fields has attended the quiz and got certificate.
