Visit to Vermicomposting Unit and Botanical Garden

Considering the COVID-19 pandemic situation in the academic year 2020-2021, Department of Zoology has organized a short educational trip for the B.Sc. III students of the college. On 13th March 2021, Department of Zoology visited Vermicomposting Unit and Botanical Garden of D.P. Bhosale College, Koregaon. This activity was organized to explore, encourage and imbibe the research attitude and culture in the students. It also helped students to think and work creatively and promoted scientific awareness. The aim of this visit was to understand Vermicomposting technique, some insect and birds variety in College campus.

At College, students firstly visited vermicomposting unit, understood the techniques of organic vermicompost formation which is helpful for organic farming. Miss Shaikh N. A. provided lot of information about earthworm, varieties of earthworm and process of manure formation. Then students were visited to medicinal plant garden, seen varieties of medicinal Indore and outdoor plant varieties. Students also understood the medicinal uses of plants in daily day to day life. At last but not least students visited to Bee box which is placed at the corner of Garden. This box is helpful for *Apis indica* species of honey bees to collect the nectar and honey in and around the college area.

This knowledge was really helpful to the students for further applications in Organic farming. 6 students and 1 staff visited the Vermicomposting Unit and Botanical garden and motivated to work in Applied Biology.
