

**Student Centered Activities**

**Demonstration on precision farming**

B. Voc. Sustainable Agriculture organised demonstration on precision farming On 1<sup>st</sup> July 2022. Precision agriculture (PA) is the science of improving crop yields and assisting management decisions using high technology sensor and analysis tools. precision farming is a new concept adopted throughout the world to increase production, reduce labor time, and ensure the effective management of fertilizers and irrigation processes. Mr. Jinay gaddah shah (Owner of Om engineering works, Sangli) talked on this topic and he gaved demo of precision farming ie-using of drone in agriculture.

**Student interaction with subject specialist Mr. Jinay Gadda**

**Mr. Jinay Gadda Shah Demonstrated use of drone in precision farming**
